

Aurora Academy • 824 6th Street • Toledo, OH 43604 • (419) 693-6841

Parent Involvement

Parental Involvement is encouraged at Aurora Academy. Parents are invited to participate in school activities, assist with student recruitment, serve as chaperones for field trips, and assist in the classroom. Parent meetings will take place throughout the school year to provide information about the academic progress of students. A goal at Aurora will be to establish a parent group to support academics and school activities.

Student Achievement

Aurora Academy teachers provide an instructional program built on high expectations for student achievement. Students receive instruction based on the Ohio Learning Standards using new curriculum resources to support achievement in reading, writing, mathematics, science, and social studies. During the 2017 – 2018 school year, Aurora Academy students will use technology daily as teachers provide instruction. Teachers will send home a weekly communication each Thursday that will include information about assignments, projects, homework, testing, and classroom activities.
